Trash to treasure

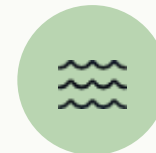

Edgar Tarimo
Founder & ceo

Problem Statement

where does 96% of the plastic go ?

ocean

landfill

open fire burning

Solution

Product's Competitive Advantage.

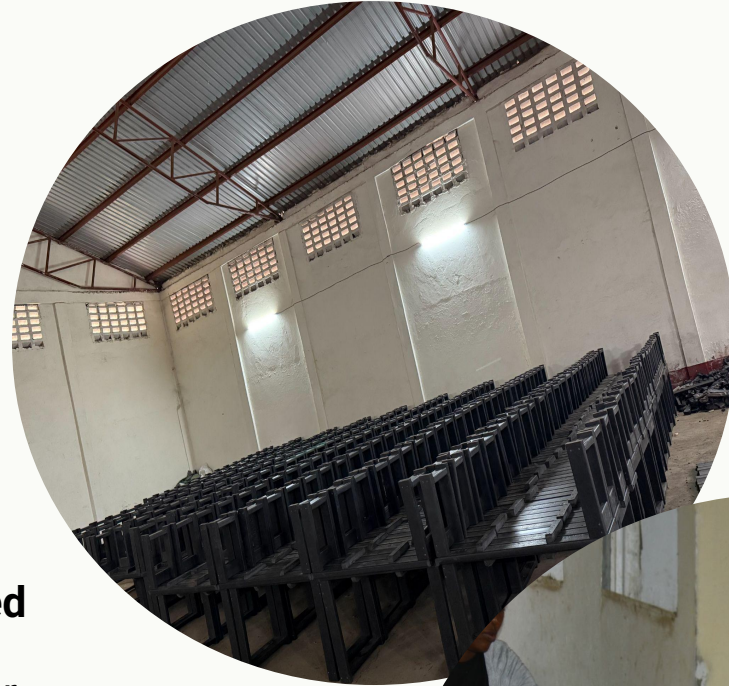

-  made from recycled materials
-  maintenance free ,saves money
-  water resistant, great for outdoor
-  stronger than wood
-  modern smooth finishing.
-  you can exchange your home plastic waste with our furniture

Traction

- ♻️ **1,000+ tons of plastic waste recycled** to date
- 💰 **£250,000+ lifetime revenue** generated
- 👥 **130 freelance waste collectors employed & empowered**
- 🌱 **5,000+ trees saved** by replacing timber with eco-lumber
- 🏭 **Fully operational factory** recycling 30 tons monthly and scaling
- 📈 **70% YoY revenue growth** with pipeline to double by year-end
- 🤝 **High-profile partnerships** with institutions & eco-lodges in Tanzania

Investment Plan

Investment: \$500,000

Purpose: Strengthen production through purchase of a pelletizing machine, expansion of raw material feedstock, and factory workflow improvements.

Impact:

- increase Output: Increase recycling from 30 to 150 tons/month.
- Improve Efficiency: Optimize raw material handling and processing.
- Create Jobs: Expand team in recycling, production, and logistics.
- Fuel Growth: Serve growing eco-product demand locally & abroad.
